

ISA has partnered with IntellectAbility to provide our insured organizations with exclusively produced training entitled The Fatal Five, that focuses on the care of people with Intellectual and Developmental Disabilities. The courses are designed to help increase the competence of Direct Support Professionals in the areas of The Fatal Five and associated health risks to reduce adverse outcomes related to these health issues.

The Fatal Five+ eLearn Course

IntellectAbility collaborated with the University of Georgia and Georgia Department of Behavioral Health and Developmental Disabilities with guidance from the Department of Justice to produce The Fatal Five elearn courses. These online courses address specific Intellectual and Developmental Disabilities conditions and needs.

The self-paced eLearning courses are filled with videos, interactive exercises and visual aids to constantly engage the student and improve data retention. The result is a student of any educational level who can feel empowered to observe, make informed decisions and take action.

The Fatal Five are five commonly identified causes of preventable death in persons with Intellectual and Developmental Disabilities and in persons who are aging. If recognized early and treated promptly, lives can be saved.

The 5 conditions:

- ▶ Aspiration
- ▶ Bowel Obstruction
- ▶ Seizures
- ▶ Dehydration
- ▶ Sepsis

Plus 2 additional:

- ▶ GERD: Gastroesophageal Reflux Disease
- ▶ Knowing When to Act

Online courses can be accessed by computer or tablet.

THREE LEARNER SPECIFIC PATHS

This series has a choice of three course paths with their own focus depending on whether you are a DSP, a clinician or a Case Manager.
