## ABUSE RISK MANAGEMENT SERVICES

### COMPLEMENTARY AND DISCOUNTED SERVICES

#### Armatus® Online Training

Your employees and volunteers can reduce the risk that a child or vulnerable adult in your care will be sexually abused by an employee, volunteer, or another program participant. But first, they must know how. Armatus Online training can teach them. They can access the training online anytime and choose from a host of courses. You can quickly check the database to determine who has fulfilled their training requirements. Best of all, you can rest assured that they will learn what they need to know, when they need to know it, to keep children and vulnerable adults in your care safe.

#### On-Site Consultation and Training

Praesidium will meet at your location with your senior management to review and discuss your organization's current system-wide and program specific abuse risk management practices and written policies. Praesidium will prepare a confidential written analysis of their findings along with recommendations for mitigating potential high-risk exposures.

Sound policies provide the foundation for a safe environment. Utilizing over two decades of experience, Praesidium will review your existing policies and determine which work, which need fine-tuning, and which are missing. They will then work with you to develop policies that permit you to accomplish your mission while prohibiting the practices most commonly associated with abuse in the types of programs you operate.
