### **WHO IS PRAESIDIUM?**

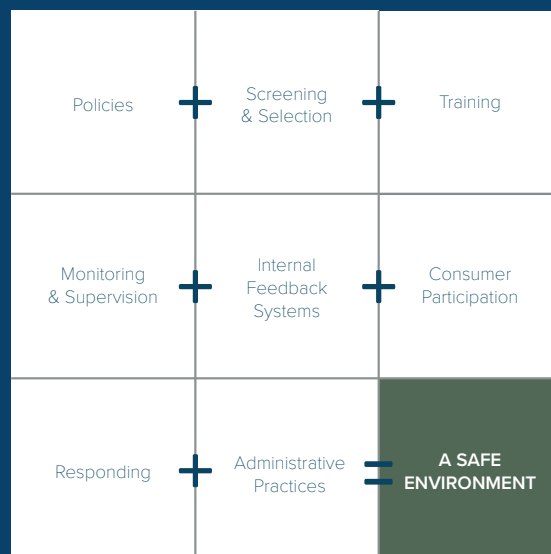

Praesidium is a mission driven risk management firm that helps organizations reduce the risk of sexual abuse. With over 30 years of experience and serving thousands of clients in the United States and 11 other countries, our dedicated team of researchers, attorneys, social workers, and human resource professionals have analyzed thousands of cases of abuse in organizations and synthesized the latest scientific research.

*We know how abuse happens in organizations...  
and more importantly, how to prevent it.*

### **PRAESIDIUM'S SCIENTIFIC METHODOLOGY**

Using current research and root cause analysis, Praesidium developed its own abuse risk management model, The Praesidium Safety Equation.® Root-cause analysis of several thousand incidents of abuse across sectors demonstrated that risks fell into eight organizational operations: Policies, Screening and Selection, Training, Monitoring and Supervision, Internal Feedback Systems, Consumer Participation, Responding, and Administrative Practices. By implementing best practices in each of these operations, Praesidium determined that risks could be reduced or eliminated.
